NARCAN

LCSO BEGINS PILOT PROGRAM TO EQUIP DEPUTIES WITH NASAL NARCAN

This program is part of the comprehensive approach of the Heroin Operations Team (HOT) initiative announced by Sheriff Chapman and Rep. Comstock in April 2015. The program's goal is to train and equip all field deputies with NARCAN, a life saving tool when seconds count. LCSO deputies who have received this training have utilized Narcan successfully in the field, helping to save lives.

What is NARCAN?

Nasal NARCAN is a nasal form of the drug naloxone that can reverse the effects of opiates such as heroin, oxycodone and hydrocodone.

Residential Traffic Calming Program

What is traffic calming?

Traffic calming is the slowing of motorists on residential streets using physical and non-physical measures without restricting access. Because addressing speeding on one street will likely push the problem to adjacent streets, traffic calming is a community initiative, and will likely include several or more streets within a community.

A street must satisfy basic requirements to be eligible for the program:

- ☐ Publicly owned and maintained
- ☐ Classified as a local residential roadway
- ☐ 2-lane roadway
- ☐ 25 mph posted speed limit (or less)

What is the traffic calming process?

- ☐ Traffic Study
- ☐ Stakeholders Meeting
- ☐ Petition Process
- ☐ Traffic Calming Plan

Typical Physical Measures

Speed Humps, Raised Crosswalks, Choker, Mini Roundabout, Chicane, Raised Median Island

For more information please contact DTCL at 703-737-8624 or take a brochure.

Traffic Projects

The Ashburn area has experienced the completion of several important road improvement projects.

- The opening of the Gloucester Parkway Extension which will relieve traffic pressure on Waxpool road.
- The extension of Russell Branch Parkway from Ashburn Village Blvd. to Ashburn Road.

The construction of the Rt. 7 interchanges both Belmont Ridge Road and Ashburn Village Blvd are progressing as scheduled

Traffic Projects

The construction of the Rt. 7 interchanges at both Belmont Ridge Road and Ashburn Village Blvd. are progressing as scheduled. The estimated completion for Ashburn Village Blvd. is the summer of 2018. The interchange at Belmont Ridge is scheduled for completion in the fall of 2018.

Station Detectives

July 2015/Detective Hall

There have been 12 cases assigned to this station where SUV's (GMC, CHEVY, and CADILLAC) have been located in the morning by the owner up on blocks. Detectives have spoken with agencies throughout Northern VA and have been advised that they have also been hit very hard over the past year with similar cases. No agency has any leads on suspects. Loudoun Detectives were able to see video of one case where a 2012 or newer Tahoe was used by the suspect. All four tires and wheels are removed from the vehicle and it is left on cinder blocks. Most of the vehicles are sitting in the driveway of the owner or in close proximity of the owner's residence. Detectives believe this is happening between 1-4 AM. The most recent cases were on 1/19/16 and 1/20/16. There were also four cases in one night in the county of Arlington on 1/16/16, that are believed to be related.
